6MP Corner Solution c25-100

Perfect Overview • Discrete and Secure • No Blind Spots

Security-Vision-Systems

Corner view with 103° (B036) premium lens

included is MxActivitySensor to avoid false alarms and automatic behavioral detection for the c25. All indoor cameras are available as product option with complete two-way audio, including microphone and loudspeaker. This offering is perfect for small offices and shops because the system is easy to expand and there are no license or update fees.

Also included is the MOBOTIX Video Analysis software for objects or people statistics, heat map reporting and behavioral events without any extra costs, which is perfect for indoor locations like retail stores, hotels and restaurants, museums, health care, universities and schools. An optional expansion board can be plugged on the backside of the camera to realize additional IO- and alarm functions.

Perfect Overview Without Blind Spots

The new corner solution c25-100 consists of the 6MP c25 indoor camera equipped with the 103° premium lens and the newly designed corner mount. This combination is perfect to create a Discrete and appealing interior design solution to cover a complete room from wall to wall without any blind spots. Thanks to the horizontal opening angle of 103° there is enough flexibility to cover interior room situations with highest resolution details. The corner mount can be easily installed on 3 different fixation points, whereas the c25 will be installed in the mount without any tools thanks to the innovative click-in mechanism of MOBOTIX. The S15 sensor module equipped with the 103° premium lens, installed in a MOBOTIX surround mount is also an ideal solution to cover long distance corridors like in hotels or office buildings with highest resolution details.

Competitive Without Compromise

Like all other indoor cameras, the c25-100 corner solution is very competitive and at the same time supporting all MOBOTIX functions. At the price of €466, the customer gets a complete standalone video surveillance system, including SD card or NAS event recording, alarming, professional video management (VMS) and video analysis functions like heat map and object statistics. Further highlights are the integrated hemispheric technology and different lens options with the new 103° lens to cover a complete room without any blind spots. Also

Easiest Installation

Beside the c25-100 corner solution, the 6MP indoor models c25 and p25 are easily installed within minutes in suspended ceilings like a halogen downlight. The p25 for example supports all lens and sensor options to ensure always the perfect solution for any indoor environment. All indoor models are supported with On-Wall Kits to cope with all surfaces.
